

SUMMARY

A certified AWS professional with hands-on experience in designing, deploying, and maintaining solutions on AWS cloud. Highly skilled in using DevOps tools including Jenkins, Git, and Ant Scripts for deployment automation. Proficient in UNIX, SQL, and Java with a strong understanding of the ITIL framework. Known for strong problem-solving skills and the ability to troubleshoot complex issues in a cloud environment.

TECHNICAL SKILLS

- Cloud Technologies: AWS EC2, S3, EBS, ELB, Auto Scaling, VPC
 - DevOps Tools: Jenkins, Git, Ant Scripts, Cypress
 - Databases: Oracle, SQL
 - Languages: Java, SQL, React, Typescript, Redux, HTML, CSS
 - Tools: UNIX, Autosys, ServiceNow
 - Other: ITIL Framework, Incident and Change Management, Financial Services
-

EXPERIENCE

Jr. DevOps Engineer, CGI | January 30, 2023 - Present

- Applied problem-solving skills to modernize overall technology solutions impacting client missions directly.
- Led client discussions to communicate technical updates and solution enhancements.
- Developed and troubleshoot technical solutions including automation, software issues, monitoring, maintenance, configuration, SQL scripting, and CI/CD pipeline implementations.
- Participated in technical architecture solution efforts, interfacing with feature and product teams to understand business needs.
- Stayed informed on technology trends within the Cloud and DevOps, advising clients on how these technologies would benefit future development platforms.

Production Support Specialist L2, Fannie Mae | September 2021 - January 2023

- Provided functional & technical support for applications, handling diverse issues from application errors to infrastructure issues.
- Participated in release cycles for functional validation on various environments, coordinating deployments and post-release checks.

- Liaised with Development teams for prioritization of enhancements and bug fixes.
- Participated in DRP and BCP exercises and coordinated with Infra teams on server patching and upgrades.

Production Support Specialist L1.5, Fannie Mae | October 2020 - September 2021

- Worked on planning and execution of change, problem management, and incident management.
 - Provided mid-level end-user support, including systems administration assistance and user documentation updates.
 - Utilized UNIX command-line and SQL scripting for various tasks and troubleshooting.
 - Gained experience with general application and infrastructure support within the ITIL framework.
-

CERTIFICATIONS

- AWS Cloud Practitioner, Expires: June 23, 2024
 - AWS Certified Solution Architect Associate, Expires: July 23, 2024
 - AWS AWS Certified Developer – Associate, Expires: 9 July 2024
 - AWS Certified SysOps Administrator – Associate, Expires: 19 July 2024
 - AWS Certified Solutions Architect – Professional, Expires: 9 August 2024
 - HashiCorp Certified: Terraform Associate - Expires: 07 April 2024
-

EDUCATION

- Software Engineering, Lambda School
- Computer Science, Mississippi College
